GENERAL MANAGER

Oversee the day-to-day operations of the packaging factory, ensuring adherence to quality standards along with the QA QC officer, safety protocols, and production schedules with Elay

Develop and implement operational policies and procedures to enhance efficiency and productivity

Implement and maintain rigorous quality control measures to ensure the production of high-quality packaging solutions

Educational Background:

Business administration, management, industrial engineering, or a related field is often required. Some companies may prefer candidates with a master's degree in business administration (MBA)

Several years of experience in a managerial or leadership role is essential. This could include experience in a packaging company or a related industry

Experience in sales and marketing is beneficial as the General Manager may be involved in developing and implementing business strategies to drive sales and market share

Knowledge of regulations and compliance standards related to the packaging industry is important to ensure that the company operates within legal and ethical boundaries
